Higg Index

ADVANCED ANALYTICS

The interactive web-based dashboards will:

✓ Analyze trends in factory score and performance, environmental impact, reduction targets, and best practices.

✓ Highlight high and low performers by vendor, country, product category, and factory type.

✓ Benchmark factory responses against peers.

✓ Integrate brand or retailer-specific information such as internal supplier id's, product category, tier, and vendor.

✓ Export to csv files to encourage further analysis by brands or retailers.

ADVANCED ANALYTICS

The Sustainable Apparel Coalition and Anthesis have partnered, for the second year, to provide members with insights into data reported by suppliers via the Higg Index Facility Environmental Module.

Sustainable
Apparel Coalition

Anthesis

THE HIGG INDEX & ANTHESIS

Organizations looking for deeper insights into Higg performance across their supply chain will have access to interactive dashboards.

These interactive dashboards allow users to slice and dice Higg responses and score data, show benchmark results, and enable more strategic engagement on key impact areas with value chain partners.

Questions the dashboards will answer:

- What level of performance are our facilities achieving?
- How did each of our facilities benchmark against each other and our peers?
- What are the trends at a facility level?
- Where are the highest scores achieved?
- Where is our supply chain's impact?
- What reduction targets are facilities setting?

QUANTITATIVE IMPACT | FOOTPRINT ANALYSIS

Supply Chain Footprint for Your Factories

Impacts reported by factories are broken down below based on filter selections. Outliers have been removed from the totals, and units have been standardized to enable aggregation. Hovering over cells provides more information.
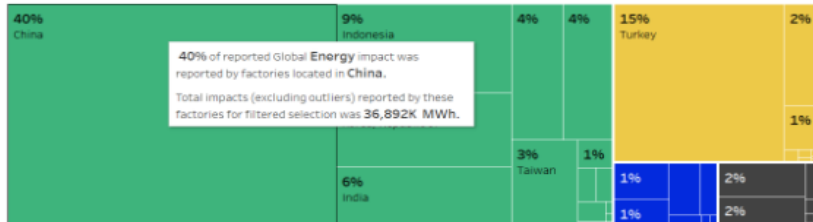

Total Impact, Excluding Outliers

	Energy		Waste			Wastewater	Water
	Electricity	Steam	Hazardous Waste	Recycled Waste	Solid Waste	Wastewater	Water
	MWh	MMBtu	Metric Tons	Metric Tons	Metric Tons	kl	kl
Dyer/Printer	22,532,638	302,231,823	83,872	537,057	1,276,478	6,485,740	1,006,164,618
Final Assembly	6,015,209	18,415,530	5,235	266,938	683,088	1,907,559	222,468,412
Material Supplier	5,927,098	47,113,497	5,328	106,085	245,424	977,907	202,019,109
Other	5,543,081	10,039,388	8,430	114,556	188,026	457,372	112,445,959
Trim Supplier	541,811	1,364,949	3,301	8,894	31,593	27,028	9,051,178
Packaging Supplier	45,384		128	5,048	4,975	4,192	1,328,747
Laundry							
Grand Total	40,605,221	379,165,187	106,294	1,038,578	2,429,584	9,859,798	1,553,478,023

High impact or intensity areas highlighted in yellow.

ADVANCED ANALYTICS DASHBOARD

Stay curious, and hover often.
Many of the charts, maps, and visuals in the Advanced Analytics dashboard will provide more data and background information when you hover over a chart (in a box called a tooltip). To view tooltips, simply hover your mouse over a data point or area for a full second. Here is what the tooltip will look like.

Impacts | Factory Benchmarking

Filter totals to benchmark against factories selected below:

* Factory Averages Reported by Year

|	No. of Factories	Avg. for Selected Metric	% Change from Previous Year
2013	213	9,164	
2014	559	14,085	53.70%
2015	2,264	6,615	-53.04%
2016	2,224	8,218	24.24%

Reported Average for All Factories in Higg Index
Includes factories that are same Factory Type as your responding factories (see list under Filters at right)

|	No. of Factories	Avg. for Selected Metric	% Change from Previous Year
2013	304	7,457	
2014	1,236	9,171	22.99%
2015	6,884	5,064	-44.78%
2016	5,311	6,413	26.62%

Download your data whenever you like.
The underlying data to charts and other details like internal supplier ID are always just a few clicks away. To download data, click a chart, cell, or axis and follow either of the steps below.

1) Locate the Command Butons that appear on the selected field, and select the 'Download' icon:

2) Navigate to the top right corner of your screen a select Download Data or Crosstab, which generate two different formats for the download:

PRICING

Maximum Number Facilities Included Tier*	Price (USD)
1,000	$20,000
500	$15,000
250	$13,000
100	$11,000
50	$9,000
25	$7,000

*If maximum number of facilities within a tier is exceeded, pricing for the next tier will apply. If 1,000 facilities is exceeded, each additional increment of 1,000 facilities is priced at $1,000 USD.
